

Our outpatient divisions at Cincinnati Children's Hospital Medical Center began using our electronic medical record, Epic, on the dates listed below. The information you see in MyChart is from your electronic medical record.

Check the list to determine how far back MyChart records go for your division. For example, if you are a patient in Allergy & Clinical Immunology, you'll see records in MyChart for any visits to that division after September 30, 2008.

- Adolescent Medicine (2/11)
